

# SURGICAL VERIFICATION OF PROFICIENCY

## Suturing Technique Assessment Report

**Suture Pattern:** Simple Interrupted  
**Assessment Date:** September 04, 2025

### Assessment Result

**3.2 - competent**

### Assessment Results

#### 1. Perpendicular needle passes

**Score: 3/5 (Developing Pass / Generally Reliable)**

Assessment of perpendicular needle passes based on video analysis shows developing pass / generally reliable performance level.

#### 2. Gentle tissue handling

**Score: 4/5 (Proficient)**

Assessment of gentle tissue handling based on video analysis shows proficient performance level.

#### 3. Square, secure knots

**Score: 3/5 (Developing Pass / Generally Reliable)**

Assessment of square, secure knots based on video analysis shows developing pass / generally reliable performance level.

#### 4. Appropriate approximation/tension

**Score: 2/5 (Minimal Pass / Basic Competent)**

Assessment of appropriate approximation/tension based on video analysis shows minimal pass / basic competent performance level.

#### 5. Even spacing (0.5-1.0 cm)

**Score: 3/5 (Developing Pass / Generally Reliable)**

Assessment of even spacing (0.5-1.0 cm) based on video analysis shows developing pass / generally reliable performance level.

#### 6. Edge eversion (flat/slight acceptable)

**Score: 4/5 (Proficient)**

Assessment of edge eversion (flat/slight acceptable) based on video analysis shows proficient performance level.

**7. Economy of time and motion**

**Score: 3/5 (Developing Pass / Generally Reliable)**

Assessment of economy of time and motion based on video analysis shows developing pass / generally reliable performance level.

## **Final Assessment**

**Final Score: 3 - Developing Pass / Generally Reliable**

**Summative Comment:**

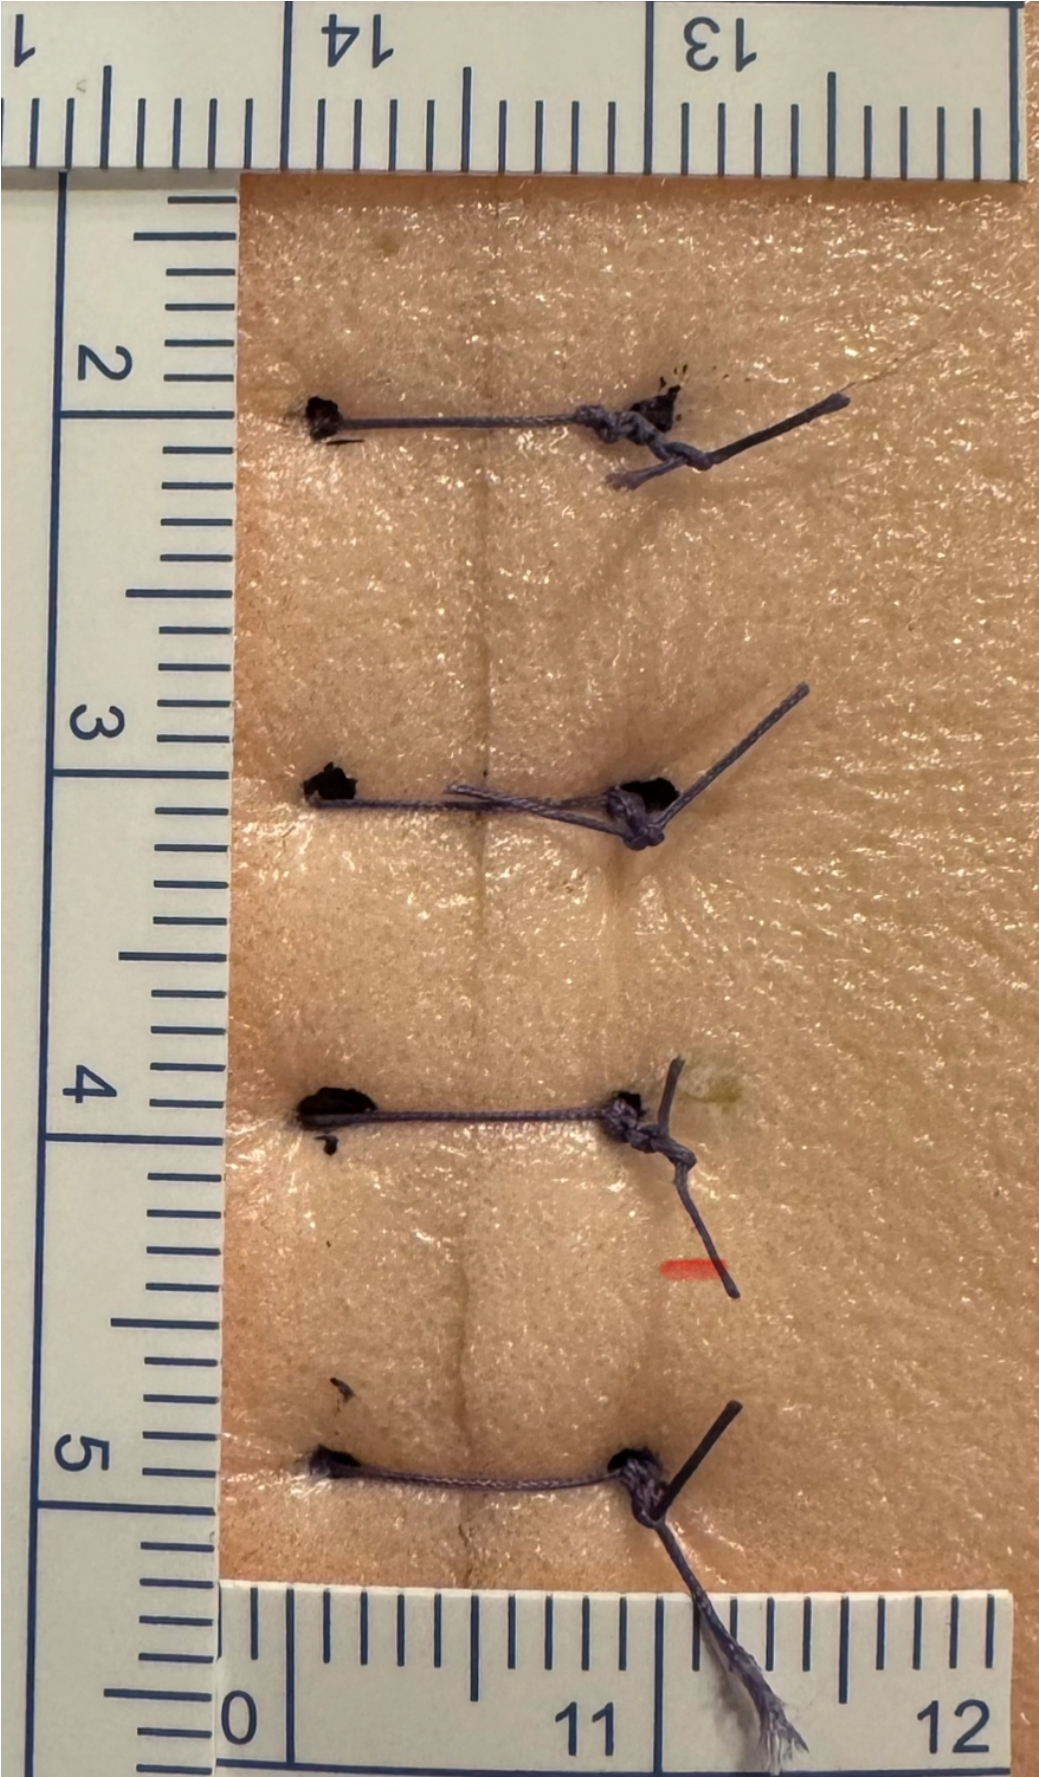

Test summative assessment
